

JAYSON KJENSTAD

Computer Science Student

(253) 678-6348
jayson.kjenstad@mines.sdsmt.edu

Profile Current 5th year computer science student with customer service, teamwork, and leadership skills.

.....

Skills **Leadership**
Lead small sections of a thrift store while managing the work of other team members. Also led and trained small moving crews while managing time and progress of the job.

Teamwork
As a member of the School of Mines football team, I have learned how important teamwork is. Every day, I work with my teammates to accomplish difficult tasks on the football field. These teamwork skills carry over to life off the field.

Time Management
My time at School of Mines has taught me how to manage my time efficiently. While being a student athlete taking up to 18 credits a semester, I have learned to effectively accomplish many tasks during an extremely busy schedule.

Programming
Able to code in C++, Python, Java, C#, and HTML. Strengths in database and GUI. Currently strengthening mobile computing skills. Other experience with Android Studio and Azure.

.....

Experience **First Due Movers** 2013-Current
Mover
Move and deliver boxes and furniture items for local house to house moves. Work efficiently with the moving crew to load items into the truck, and deliver the items to the drop-off location in a timely manner.

.....

Education **South Dakota School of Mines and Technology** 2012-Current
BS, Computer Science
